13 October 1983

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Judge Clark, 12 October 1983

Judge Clark, Ken DeGraffenreid, the DCI and DDCI were present. The following topics were discussed:

- South Korea: The Rangoon Bombing. The DCI briefed Clark on this incident. The DDCI passed his copy of the DDI/EA update to Clark for his use in briefing the President. The DDCI said that President Chun is between a rock and a hard place: he is facing increasing pressure to retaliate against North Korea but is pressed to exercise restraint due to President Reagan's upcoming visit.
- Iran-Iraq. Clark asked if we had an estimate on the impact of French Etendards going to Iraq. The DCI said our estimate would be out Thursday, 13 October, when it is scheduled to go before NFIB. Clark reacted as though tomorrow would be too late but he did not request any immediate action.
- NSSD 1-83: Technology Transfer Policy. The DDCI gave Ken DeGraffenreid a copy of [redacted] memorandum on the lack of progress in this effort. The DCI weighed in heavily in this discussion. The DDCI said it was deplorable that we had increased the attention both within the US and around the world to this issue but had done nothing. Clark agreed. The DDCI asked Clark if he was aware of the feud between Customs and Commerce. Clark said he was aware and acknowledged that we need to get our act together.
- Libyan Ship to Iran. Clark inquired about a Libyan ship being offered to Iran for use in mining the Gulf of Hormuz. (The DDCI said we owe Clark an answer on this; [redacted] is assigning action.)

- National Space Strategy/NRO. The DCI asked the DDCI to discuss this topic. The DDCI dumped all over Clark. Clark responded by saying that his 4 October memo was only intended to get the DCI and Secretary of Defense back into the act. The DDCI pointed out, however, that the memo said more than that: in giving JCS operational control, the memo was treading on DCI turf. (After the meeting Clark told the DDCI that in no way would the DCI's role with the NRO be changed.) The DDCI gave Ken DeGraffenreid a copy of the IC Staff paper/talking points on this topic.
- The Willard Report. Richard Willard of Justice has completed a report on the use of the polygraph; the DCI was given a copy. (The DDCI asked me to get the copy from the DCI and have the Office of Security and General Counsel review it.)
- Moscow Embassy Security. The DDCI gave DeGraffenreid a copy of Evan Hineman's memo. DeGraffenreid said he agreed with our position.
- Congressional Actions. The DCI spoke of upcoming Congressional actions. He mentioned that Boland may back off from the Boland-Zablocki Bill between now and the 19th. It appears that the House may stand down on this issue until next April when the Senate's bill is slated to be addressed. At that time Boland would seek legislation to require Congressional approval for any paramilitary activities.
